

CV BEN TUCKER PROJECT MANAGER

With 14 years of Public Infrastructure, Design, construction, manufacture and Project management experience and qualifications in Design, Sustainable development and Project management, Ben has a broad base of skills. Ben's project experience ranges from, community buildings, skate parks, parklands, land remediation / development, aquatic centres, bridges, roads, tourist parks, waste transfer facilities, feed in projects for light rail and bus station redevelopment, to small scale renewable energy projects.

Ben has experience from high level scoping, to land use feasibilities, development approvals and delivering construction documentation and construction support services on over 150 projects. Ben has lead feed in projects for clients as diverse as New Doha international Airport, Auckland City Council, City of Sydney, Gold Coast City Council, Translink, Networkrail, Centro and South Yorkshire Passenger Transport authorities in the UK. This broad perspective allows him to relate to all stakeholders, from councilors to site managers, and add value throughout the project.

KEY STRENGTHS AND ATTRIBUTES

Project scoping - Risk identification and analysis - Procurement and HR to build project specific teams - stakeholder and schedule management - sustainable design fundamentals - land use identification - delivery of multi discipline and specialist design projects - Tender evaluation including sensitivity analysis - ipad app development for asset management - Tender preparation.

AFFILIATIONS

Member, Project Management Institute

Member, Institute of Engineering Designers

QUALIFICATIONS & TRAINING

PPMP (Project Management Professional) - Accredited by the Project Management Institute (Global)

WorkCover Construction Induction (White Card)

Incorporated Eng (UK Engineering Council)

MSc - Sustainable Environmental Development - Specialising in sustainable design

BSc - Product Design, Specialising in reducing embodied energy, and promoting CPTED principles in Rail/Bus waiting structure Design

NVQ LEVEL 4 - Business Management

EXPERIENCE

2007 – Present
Project Manager
COMPLETE Urban Pty Ltd

2007 – 2008
Design Manager
HUB Street Equipment

2003 – 2007
Design and Project Management Consultant
University Wales Institute Cardiff, UK, Specialising in Built Form and Infrastructure Upgrades

2001 – 2003
Lecturer and Design Consultant
University of Glamorgan, UK

1998 – 2000
Design Engineer within Architectural Design industry
Jordan Fabrications, UK

PROJECT EXPERIENCE

Project: Robina Community Centre Client
Client: City of Gold Coast
Role: Project Manager
Key Tasks: Provide feasibility plans, Concepts, Development approvals, Construction documentation, Cost planning, Acoustic design, Landscape architecture, Civil, Architecture, Building services, Constructability reviews, and Construction phase support.

Project: South Stradbroke Island Redevelopment
Client: City of Gold Coast
Role: Project Manager
Key Tasks: Licenced cafe redevelopment, Waste/utilities transfer station, Land rezoning, Waste treatment plant, Deep aquifer extraction modelling, Solar system and LPG generator feasibility, bathymetric survey, Shoreline ecosion and replenishment assessment, Social and Environmental Impact Assessment, Land remediation, Town planning and approvals, Geotechnical, Civil infrastructure planning.

Project: Bus Stop Design Program
Client: TRANSLink
Role: Project Manager
Key Tasks: Coodinating Civil, Environmental, Electrical and Structural to achieve construction permit approval

Project: Bus Stop Audit
Client: Logan City Council
Role: Project Manager
Key Tasks: Develop asset capture application and lead team to detail city wide audits and upgrade planning.

Project: Mudgeeraba Aquatic Centre
Client: City of Gold Coast
Role: Project Manager

Project: Helensvale Library
Client: City of Gold Coast
Role: Construction Phase Support

Project: GCCC Strategic Aquatic Leisure Centre
Client: City of Gold Coast
Role: Planning Guidelines
Project Manager

Project: Reedy Creek Waste Transfer Station
Client: City of Gold Coast
Role: Project Management support

Project: New Doha International Airport – Infrastructure/
Client: LDP Lighting/ARUP
Role: Multi Disciplined Design Manager for Various built structures, lighting, sculptures and furniture
