

PYRMONT VILLAGE UPGRADE

Harris Street forms a major access corridor between Broadway and Johnstons Bay traversing Ultimo and Pyrmonts commercial, cultural and residential areas. It also links important open space facilities. The addition of new paving, extended social areas, pocket park, tree plantings, Smartpoles, banners, decorative lighting and other facilities all contribute to the enhancement of the public domain.

COMPLETE's concept improved opportunities for outdoor dining, removed aerial cables and reduced traffic speed. The precinct continues to grow in popularity as a result.

LOCATION: Pyrmont, Sydney
PROJECT TYPE: Landscape, Engineering
BUDGET: \$5,000,000
STATUS: Completed
ORGANISATION: City of Sydney
