

# SEPP59 LINK ROAD & BRIDGES

**LOCATION:**  
Eastern Creek, NSW

**PROJECT TYPE**  
Engineering & Urban Planning

**BUDGET**  
\$1.5M

**STATUS**  
Ongoing

**ORGANISATION**  
Blacktown City Council

COMPLETE were engaged to prepare a review of environmental factors, concept and detailed design for a new road bridge in a proposed industrial sub-division.

The REF determined that there were a number of ecological and archaeological sensitivities that required consideration throughout the design and construction process.

The detailed design process included digital modelling, structural design, lighting, stormwater and sediment and erosion control.
