

JIMBOOMBA AFL AND BEENLEIGH MULTISPORTS CHANGE ROOMS AND AMENITIES DESIGN

Complete Urban have provided multidisciplinary services for 2 new amenities facilities for Logan City Council.

The projects were delivered as part of the Queensland Government 'Female Facilities' Program.

Both facilities are similar in design and use simple robust materials in order to meet tight budget constraints whilst also providing the required level of amenity. Site services at both sites were severely under the required capacity and as part of the project, COMPLETE designed and documented the increase in existing site services infrastructure to accommodate the new buildings.

LOCATION: Logan, QLD
PROJECT TYPE: Architectural
BUDGET: \$127,900 (Fee Value)
STATUS: Design Phase
ORGANISATION: Logan City Council
