

DOHLES ROCKS ROAD FORESHORE IMPROVEMENTS STAGE 2

Having completed Stage 1, COMPLETE were engaged to undertake Stage 2 of the Dohles Rocks Road project. A key aspect of Stage 2 was the narrow width of the foreshore park and the requirement to retain parking. Careful analysis of the location of the path in relation to the seawall was critical. Street furniture and paving treatments were combined from stage 1 and will establish the pattern for a future stage 3 project which will complete the foreshore.

LOCATION: DOHLES ROCKS, QLD
PROJECT TYPE: Construction
BUDGET: \$600,000
STATUS: Completed
ORGANISATION: Moreton Bay Regional Council
