

DIAL A DUMP EASTERN CREEK FACILITY

COMPLETE were engaged to prepare detailed design and construction documentation, including underground services, stormwater drainage, road and hardstand pavements, for Dial A Dump Materials processing Centre (MPC) at Eastern Creek.

The MPC receives mixed loads of waste which are unloaded and classified in accordance with EPA guidelines. The facility is equipped with state of the art plant which aims to recycle 92% of the waste stream. Residual waste not able to be recycled is transferred to a land fill site immediately behind the building.

At the time of construction, the facility was the largest integrated/recycling facility in the southern hemisphere.

COMPLETE also acted as project managers for the project during detailed design stage.

LOCATION: Eastern Creek, NSW
PROJECT TYPE: Project Management, Architecture, Landscape, Engineering
BUDGET: \$13.9M
STATUS: Completed
ORGANISATION: Lighthouse / Community Assets & Infrastructure
