

COLLARROY SURF CLUB BUILDING

The existing surf club building at Collaroy had not been changed for many years and Council recognised that the building required improvement to provide appropriate amenities, cater for current day use and provide an attractive facility in keeping with its Tourism Strategy.

COMPLETE was initially engaged to provide consultation and concept design services. Several options were developed to demonstrate the needs of all stakeholders, which then allowed the project to advance to detailed design.

LOCATION: Collaroy, NSW
PROJECT TYPE: Architecture
BUDGET: \$ 500K
STATUS: Completed
ORGANISATION: Warringah Council
